## EDUCATION

**George Mason University**

**Fairfax, VA**

**Information Technology, B.S.**

*Expected: May 2026*

**Cumulative GPA: 3.6**

**Relevant Courses:** Database Fundamentals, Information Security Fundamentals, IT Architecture Fundamentals, Intro to Computing

## TECHNICAL SKILLS

**Languages:** JavaScript, Java, HTML, CSS

**Developer Tools:** Git, Visual Studio Code, JGrasp, Dreamweaver

**Microsoft Office Suite:** Excel, PowerPoint, Word

**Concepts:** OOP, Waterfall, Agile/SCRUM

## WORK EXPERIENCE

**Crosshair Cyber**

**Fairfax, VA**

*Cybersecurity Intern*

*May 2024 - Present*

- Reviewed vulnerability assessments and penetration tests on internal networks, applications, and systems to identify security weaknesses.
- Participated in regular team meetings and knowledge-sharing sessions to learn about current cybersecurity threats, trends, and best practices.
- Attended discussions on networking and penetration testing methodologies, gaining insights from experienced cybersecurity professionals.

## PROJECTS

**Pomotivity** | *React, HTML, CSS, Vercel, JS, Material UI, Git* ([Link](#))

- Developed a feature-rich productivity app, boosting user focus with a dynamic Pomodoro timer and task management
- Implemented features to add additional functionality, enhancing user engagement and interactivity throughout the website
- Enhanced user experience with 70+ themes and presets, leading to a 50% increase in daily active users
- Integrated Material-UI components, enhancing the app's UI/UX consistency and reducing development time by 30%, leading to a more intuitive and modern user interface experience.
- Ensured cross-browser compatibility and responsiveness by subjecting the website to rigorous testing across various browsers and devices

**BringTheMenu** | *Vue.js, HTML, CSS, JS, Adobe Products, Figma, Git* ([Link](#))

- Engineered a real-time meal deal finder tailored for students, leveraging AI to offer personalized restaurant recommendations around campus
- Applied Agile development methodologies, including Scrum, to manage project tasks and maintain a flexible and iterative approach throughout the development cycle
- Employed Figma for the development of application prototypes and mockups, streamlining the design and planning process

**Portfolio Site** | *HTML, CSS, Three.js, JS, Blender, Vite, Vercel, Git* ([Link](#))

- Designed and developed a visually engaging web page portfolio, integrating 3D models created using blender for an immersive user experience
- Employed a blend of Three.js, HTML, CSS, and integrated libraries and APIs including GSAP and lil-gui to craft an interactive, responsive, and visually appealing website
